An ex-spy chief who spoke out publicly against Trump while inspiring other career intelligence figures to follow suit has admitted his leading role in the intelligence community waging political war against the president, describing his actions as something he didn't "fully think through". In a surprisingly frank interview, the CIA's Michael Morell - who was longtime Deputy Director and former Acting Director of the nation's most powerful intelligence agency – said that it wasn't a great idea to leak against and bash a new president.

Morell had the dubious distinction of being George W. Bush's personal daily briefer for the agency before and after 9/11, and also served under Obama until his retirement. In the summer of 2016 he took the unusual step (for a former intelligence chief) of openly endorsing Hillary Clinton in a New York Times op-ed entitled, I Ran the C.I.A. Now I'm Endorsing Hillary Clinton, after which he continued to be both an outspoken critic of Trump and an early CIA voice promoting the Russian collusion and election meddling narrative.

As Politico's Susan Glasser put in a newly published interview, Morell "has emerged out of the shadows of the deep state" to become one of Trump's foremost critics speaking within the intel community. However, Politico summarizes the interview as follows:
This rally isn't half as gay as the crimes we've committed.
And, uh, as a detective, we're not allowed to believe in coincidence.

California Organ Procurement Companies with Links to Hillary Clinton Admit Guilt in Illegal Body Parts Trafficking

December 9, 2017 By Operation Rescue 28 Comments

By Cheryl Sullenger

Santa Ana, CA – Two Southern California organ procurement companies owned by the Ecuadorian Isaias crime family, have agreed to pay nearly $7.8 million in a settlement of a law suit brought by Orange County District Attorney Tony Rackauckas last year that alleges the companies broke state laws regarding the trafficking of human aborted baby body parts.

The companies, DV Biologics and DaVinci Biosciences have admitted guilt, and have been also ordered to pay $195,000 in penalties and cease all business activities in California within 180 days.

“This settlement seized all profits from DV Biologics and DaVinci Biosciences, which they acquired by viewing body parts as a commodity and illegally selling fetal tissues for valuable consideration. These companies will never be able to operate again in Orange County or the State of California,” stated District Attorney Rackauckas in a press release dated December 8, 2017.
The Isaias Brothers: (from left) Roberto and William, who were convicted in Ecuador for stealing millions from a failed bank, and Estefano, Sr. who was involved but not charged. All three, along with their extended families, were given special favors and protection from the Hillary Clinton State Department after making large contributions to Dem. politicians, especially Pres. Obama, in a "Pay to Slay" scandal. Estefano Sr. and other family members are involved in aborted baby parts trafficking scheme in CA.
Estefano Isaias, Jr. was involved in taking illegal profits from the sale of aborted baby body parts, according to an Orange County, CA, lawsuit. He is also the CEO of an online porn business. His family came to America with the help of Hillary Clinton’s State Department after huge political contributions to Obama and others.
DV Biologics and DaVinci Biosciences, both affiliated with The Clinton Foundation, have admitted guilt, have agreed to PAY $7.8 million, and are banned from California.

The Federal Government quickly comprehended the role of public opinion as a foreign policy tool during the Cold War. Following World War II numerous Government agencies began the systematic exploitation of motion pictures, radio, and other media to influence public opinion abroad toward support of American foreign policy initiatives. In 1953 the Federal Government created the United States Information Agency (USIA) to oversee most activities in this area. The USIA supported American foreign policy makers through programs of information gathering, analysis, and dissemination. Although most of the USIA's records date later than the Korean War, RG 306 contains records of some predecessor agencies that include documentation pertaining to that conflict.

Billionaire George Soros' son Robert, 51, makes out with new 29-year-old girlfriend in front of his wife who was booked on the same flight

- Robert Soros was booked on the same flight as his soon-to-be ex-wife Melissa Schiff on Sunday.
- Seated a few rows in front of his ex, Soros proceeded to make out with his new 29-year-old girlfriend Jamie Singer.
- Schiff didn't make a scene, but it was uncomfortable for her and for others in the business-class cabin who were appalled by his brazen behavior, a source told the New York Post.
- The couple were married for 22 years and raised two college-aged children.
- They are currently fighting over a $13 million Manhattan townhouse, an upstate New York country home and a $9 million Martha's Vineyard cottage.

Rep. Adam Schiff, the ranking Democrat on the House Intelligence Committee, was previously financially aided by the George Soros-financed MoveOn.org to win his Congressional seat.

Schiff was also awarded the Toll Fellowship, which is sponsored by the Council of State Governments, a nonprofit that monitors federal government activities and is heavily financed by Soros's Open Society Foundations.

The Open Society and Soros-funded groups have additionally supported a number of Schiff's legislative efforts.
